

Brie

2 – 3 year old spayed/female, Labrador Retriever, (black) 60#

Brie is excellent with dogs and is friendly to most people. On occasion she has been a bit suspicious of elderly people and some men. It is very subtle - she will lower her head and give a bit of a stare and a growl. She has been introduced to cats and has seemed neutral. She is not around cats on a daily basis. She is very into squirrels when outside and I have no doubt that she would take off after one if she was not leashed or on a long line. She likes to play fetch and tug-o-war. We have not had her around children, so not sure how she would be with kids. She is housetrained and crate trained. She will “counter surf” for food and if she can reach it – it’s up for grabs J

Brie came from the Marshall County Humane Society, a kill shelter in Indiana. Not all can be saved but Brie deserved a second chance at “the good life!” She is current on all of her vaccinations (Rabies, Distemper/Parvo Combo and Bordetella) and is negative for Heartworm and Lyme disease and has been on monthly parasite and flea control.

Please contact me if you think Brie is the dog for you. 574-780-3302
