

Rain

7 year old spayed/female, Australian Shepherd, (blue merle) 55#

Rain is a challenging dog. She is suspicious of strangers and not very tolerant of other dogs. Once she decides she likes you though, you can barely peel her off you. She becomes attached to you like velcro. She loves being cuddled. She is excellent for grooming and handling. She likes to play fetch and tug-of-war when she is in the mood. The dogs she gets along better with are young, goofy male dogs. Her idea of a good home would be a single female or couple with NO children or other dogs with no expectations for her to be tolerant of new people or dogs and be the center of their world. She is housetrained and crate trained - but is trust worthy to be left home alone without being crated.

Rain is AKC and ASCA Registered. She is current on all of her vaccinations (Rabies, Distemper/Parvo Combo and Bordetella) and is negative for Heartworm and Lyme disease and has been on monthly parasite and flea control.

Please contact me if you think Rain is the dog for you. 574-780-3302
